Dear EPA colleagues,

Please find attached a few edits to Jane's remarks for the air pollution conference for your consideration. Our tweaks are only to the section on NCDs and I've included a few explanatory comments with each edit.

I've also added a bullet on the "Geneva Action Agenda" as a placeholder for raising the US view that this is not a negotiated "outcome document" reflecting any intergovernmental agreement – and defer to those on the ground for the latest on how these comments should be framed.

We are also pleased to see that State is included in the list of agencies being represented in Jane's intro.

Please let me know if there are any questions.

Thank you again,
Maya

Subject: Third Day Remarks

Dear Marianne and Ted,

I hope you both have arrived smoothly in Geneva! Our team here is wondering if it would be possible for us to see the final version of Jane's remarks for Thursday? We're particularly curious about where the NCD language landed – if possible, we'd like to make a couple small tweaks to that section just for clarity in the WHO context.

Thanks for your consideration.

All the best,
Maya
